

CARE Series

3555 WALK-IN TUB

The American Tubs 3555 from our CARE Series is a top of the line bariatric walk-in bathtub that provides fuller-figured individuals up to 450 lbs. a safe and comfortable bathing experience. The 3555 is, bar none, the widest and most spacious walk-in model on the market.

The convenient, 23½", curved doorway makes entry and exit of the tub incredibly easy, while the extra-extra-wide, 27" seat, with an under-seat support frame, provides ample bathing space with some additional "wobble room." Attention should be paid to both the current size of the hot water heater as well as to the hallways, doorways and stairwells leading up to the bathroom. Door widening is almost always required to bring the tub into the bathroom area.

Having the largest well space of any of the American Tubs walk-in tubs, the 3555 is a popular choice for multi-generational homes or for individuals who prefer showers.

THERAPEUTIC SYSTEM OPTIONS

Hydromassage System - 10 Jet

Air Massage System - 20 Jet
