

CARE Series

3052S WALK-IN TUB

The American Tubs 3052-S from our CARE Series represents an updated twist on the more traditional walk-in tub design.

With its 40" high tub basin, the 3052-S offers an increased bathing depth while maintaining a compact footprint for small bathrooms. Its overall size and 20½" seat make the 3052 the perfect size for narrow bathrooms, while being large enough to accommodate individuals between 120-250 lbs.

The innovative curved door design, affectionately called the "knee-saver" design, makes closing the door from a seated position much simpler, while its 20" door width provides ample entry space for larger individuals. This newer rendition of the 3052 has overtaken other traditional models as one of our top sellers.
